Financial policy/Insurance:

- Insurance authorizations are not a guarantee of payment from your insurance company. If your insurance does not cover any services or materials, you will be billed and held responsible for any balance.

Eyewear Policy/Warranties:

- If there are any issues with your new glasses, you may return for a prescription re-check at no charge within 60 days of the exam date. Necessary changes will be made at no charge. After 60 days, re-check visits will be at a charge of $25 and new lenses will be charged at the usual fees.
- We do not take any responsibility in the accuracy or quality of materials made outside this office. We recommend you reach an agreement with your eyeglass dispenser before you place your order elsewhere. Most reputable optical dispensaries allow for a doctor's prescription change at no charge, but it is up to the patient to inquire about such policies.
- Since glasses are custom orders, there is a 25% cancellation fee on the lenses processed.
- Non prescription sunglasses are not refundable.
- Lenses purchased with a scratch resistant coating, glare free lens, transitions or polycarbonate lenses have a one time scratch warranty during the first year.
- All frames purchased at our office have a one year warranty (shipping charges apply). If a frame becomes discontinued during your warranty period, store credit will be given towards the purchase of another frame.
- We are not responsible for any breakage that may occur when using your own frame.
- For progressive lenses, there is a two month non adapt time period from the date of purchase, during which the lenses can be returned for store credit and applied towards the order of another lens (single vision/bifocal). Price difference is non-refundable.
- We are not responsible for glasses or contact lenses that are not picked up within 180 days. Payments or deposits are non-refundable.

Eye Exam and Contact Lens Policy:

- Contact lens evaluations involve additional procedures and therefore require an added fee which is not covered by most insurances.
- Eye exams and contact lens evaluations are non-refundable.

I have read and understand the policies above: Signature: _____
